

JENCO WIRELESS ACCEPTABLE USE POLICY

1. INTRODUCTION

Jenco Wireless Acceptable Use Policy ("AUP") is intended to help enhance the use of the Internet by preventing unacceptable use. All users of Jenco Wireless Internet services (the "Services")-those who access some of our Services but do not have accounts ("Visitors"), as well as those who pay a monthly service fee to subscribe to the Services ("Members")-must comply with this AUP. We support the free flow of information and ideas over the Internet and do not actively monitor use of the Services under normal circumstances. Similarly, we do not exercise editorial control over the content of any Web site, electronic mail transmission, news group, or other material created or accessible over or through the Services, except for certain proprietary websites. However, in accordance with our Internet Service Agreement, we may remove any materials that, in our sole discretion, may be illegal, may subject us to liability, or which may violate this AUP. Jenco Wireless may cooperate with legal authorities and/or third parties in the investigation of any suspected or alleged crime or civil wrong. Your violation of this AUP may result in the suspension or termination of either your access to the Services and/or your Jenco Wireless account or other actions as detailed in Section 3. This AUP should be read in conjunction with our Internet Service Agreement and other policies.

2. VIOLATIONS OF JENCO WIRELESS ACCEPTABLE USE POLICY

The following constitute violations of this AUP:

- **Illegal use.** Using the Services to transmit any material (by e-mail, uploading, posting, or otherwise) that, intentionally or unintentionally, violates any applicable local, state, national or international law, or any rules or regulations promulgated there under.
- **Harm to minors.** Using the Services to harm, or attempt to harm, minors in any way.

Attempting to impersonate any person by using forged headers or other identifying information is prohibited. The use of anonymous re-mailers or nicknames does not constitute impersonation. Using deliberately misleading headers ("munging" headers) in news postings in order to avoid spam e-mail address collectors is allowed.
- **Unsolicited commercial e-mail/Unsolicited bulk e-mail.** Using the Services to transmit any unsolicited commercial e-mail or unsolicited bulk e-mail. Activities that have the effect of facilitating unsolicited commercial e-mail or unsolicited bulk e-mail whether or not that e-mail is commercial in nature, are prohibited.
- **Unauthorized access.** Using the Services to access, or to attempt to access, the accounts of others, or to penetrate, or attempt to penetrate, security measures of Jenco Wireless or another entity's computer software or hardware, electronic communications system, or

telecommunications system, whether or not the intrusion results in the corruption or loss of data.

- Copyright or trademark infringement. Using the Services to transmit any material (by e-mail, uploading, posting, or otherwise) that infringes any copyright, trademark, patent, trade secret, or other proprietary rights of any third party, including, but not limited to, the unauthorized copying of copyrighted material, the digitization and distribution of photographs from magazines, books, or other copyrighted sources, and the unauthorized transmittal of copyrighted software.
- Collection of personal data. Using the Services to collect, or attempt to collect, personal information about third parties without their knowledge or consent.
- Reselling the services. Reselling the Services without Jenco Wireless authorization.
- Network disruptions and unfriendly activity. Using the Services for any activity which adversely affects the ability of other people or systems to use Jenco Wireless Services or the Internet. This includes "denial of service" (DoS) attacks against another network host or individual user. Interference with or disruption of other network users, network services or network equipment is prohibited. It is the Member's responsibility to ensure that their network is configured in a secure manner. A Member may not, through action or inaction, allow others to use their network for illegal or inappropriate actions. A Member may not permit their network, through action or inaction, to be configured in such a way that gives a third party the capability to use their network in an illegal or inappropriate manner.
- Multiple Logins. Using a personal account for high volume or commercial use is prohibited. The Services are intended for periodic, active use of e-mail, newsgroups, file transfers, Internet chat, games, and browsing the World Wide Web. Pinging is expressly prohibited.
- Exceeding Web Site Size and Traffic Limitations: In the future, Jenco Wireless Members may receive web space for use with their Jenco Wireless Internet access account. Each member's web space will be allocated a certain amount of traffic per month (traffic is calculated on a formula multiplying the number of hits that your site receives by the size of your files). If a site exceeds its maximum monthly allotment of traffic, the site will become unavailable until the beginning of the next calendar month. A site that exceeds the Jenco Wireless Member's maximum allotment in size will also become unavailable. Unavailability includes but may not be limited to the inability to access the site publicly or to publish to or modify the site's contents via certain Web creation tools.
